Subject: Next sampling event at Arkwood
Date: 01/24/2012 12:15 PM

Hi Jim,

The paperwork has finally come through at EPA, so I wanted to check with you on when you plan to sample next, so we can collect a split sample. EPA thought that the next round was scheduled for the week of February 13th.

Please let us know your schedule and we can have some one meet you at the site.

I hope all is well.

Thanks.

Kent D. Becher
